

Access™ Convex Boards

A magnetic, convex whiteboard with built-in drawers for storage.

from **npsg**

Convex™ adds a new dimension to ordinary Whiteboards.

Create immediate interest in your message using this magnetic Whiteboard with a convex surface! The convex design eliminates the aggravating glare typically created by flat boards and gives the audience a greater viewing area. Built-in drawers store magnets and markers right inside the board! Frame is made from shock-resistant, heavy-duty ABS plastic. Patented hanging mechanism ensures exact horizontal alignment every time. Available in 3'w x 2'h and 4'w x 3'h models. White board with light gray frame and dark gray drawer accents. Magnets and markers not included.

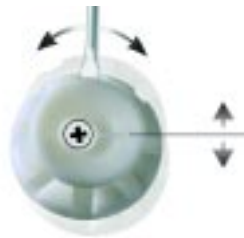

Item	Model	Dimensions
2' x 3' Convex Whiteboard	H3410136" w x 24" h x 3" d
3' x 4' Convex Whiteboard	H3430148" w x 36" h x 3" d

Two spacious slide-out drawers provide storage for magnets and markers.

Unique mounts position Convex™ perfectly level.

When drilling into walls, it is important to do it once and correct the first time. The Convex mounting system provides adjustments up and down because the mounting screw is offset. Even when your measurements are slightly off, you can adjust the mount to position the whiteboard perfectly level. A lip on the back of the board slips over the mount to keep it level and in place.

A simple twist is all you need to make the board perfectly level.

Partition brackets allow you to hang Convex boards on a cubicle wall. They are height and width adjustable.
