

Axcess™ CubbieStack™

Flexible storage that grows with your children.

CubbieStack™ Modular Storage Solutions

If you're looking for a tough storage solution that holds up to active kids and can grow with their belongings, CubbieStack™ is one of the best systems available on the market today. CubbieStack™ is great for toys, collectibles, crafts or any number of items making them accessible when needed and keeping them out of the way when they aren't. CubbieStack™ is made of tough injection molded polystyrene that has the strength of steel or wood at half the cost.

What sets CubbieStack™ apart from other products is its ability to grow with your child or children's needs. Kids accumulate books and toys faster than you can pack them away. With CubbieStack™, items can be organized efficiently and not just dumped in one big box. Smaller items can be placed in a compartment of their own and won't get lost in the bottom of a huge toy box. Trays can be labeled and can turn clean-up into an activity rather than a chore. Trays are removable with convenient carry handles that can be taken to play areas and returned when finished. Some light assembly is required.

3 Wide 18-Slot High Wall CubbieStack™

This configuration is the perfect starter set. With 18 compartments, there's plenty of room for all of your child's coloring books, crayons, toys and more. Place units side by side for personal storage in classrooms or day care facilities; simply label trays with child's name. Available with or without trays in blue or gray walls. Specify color when ordering.

CubbieStack™ High Wall Add-On

As your storage requirements increase, so can your CubbieStack™. When floorspace is limited, you can expand vertically. Each Add-on gives you three extra compartments that you can stack as high as your child can reach. Available with trays or without in blue and gray walls.

2 Wide 12-Slot High Wall CubbieStack™

The two wide model fits neatly in tight spaces or in closets and is a great add-on when you need more compartments but don't want to increase the height of the system.

Cubbies can be placed side by side when additional storage is needed while still being low enough to be accessed by kids.

CubbieStack™ Vertical Topper

Adds versatility to your CubbieStack™. Dividers lock into the base and back plate every 1¼" providing vertical storage of files, books and binders within easy reach on top of your cubbies.

DCS130. 12-Slot CubbieStack™ Vertical Topper

CubbieStack™ Low Wall Add-On

Low Wall Add-ons provide a more compact area for storing paper, notebooks or supplies. Add-ons can be placed at any level in your system to meet your requirements.
