

Access™ Space Station

Add an extra level to create more desk space.

from **npsg**

SpaceStation eliminates clutter to create valuable desk space.

Spacestation is great for storing the memo pad, tape dispenser, CD's, books, picture frame, and other desk accessories that typically clutter your desk. The anodized aluminum shelf is 7 $\frac{7}{8}$ " deep with 2 $\frac{1}{2}$ " back panel, and has extruded ridges for storing writing instruments. Support posts hand-tighten to your desktop edge for excellent stability, and elevate these accessories 5 $\frac{3}{4}$ " above your desktop. Two adjustable partitions snap in place to keep books upright and accessories sectioned as desired. Available with gray or black support posts and partitions.

Desk clamp attaches easily without tools.
