

Access™ Stacking Storage

Modular literature and forms storage that grows with your expanding needs.

from **npsg**

Stacking storage drawers make forms organization easy.

Stacking Forms Drawers are individual units that lock together both side-by-side and top-to-bottom to form any size storage system you need. Preconfigured 1-, 2-, or 3-wide units are available with either Open- or Flip-Front drawers. Individual drawers are available to customize your own storage system or to add to an existing unit.

Flip-front drawers automatically flip open when the drawer is pulled out and automatically closes when pushed back in. Your documents remain dust-free and offer a neat appearance. Each drawer includes a partition which divides it into two sections. Bases and Worktops are included.

Store twice as many forms in half the space.

Partitions divide each drawer into two sections to store 150 each of two forms — 300 total forms in each drawer.

Never run out of storage space again.

When additional slots are required, simply add drawers — not an entire new cabinet. Drawers come fully assembled, simply stack and connect and you're ready to go.

Build your ideal storage system.

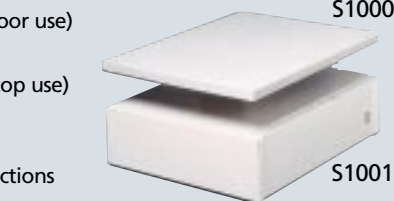

Create your own system one drawer at a time. Individual drawers stack up to 18 high and as wide as your space permits. Choose from Open- or Flip Front Drawers. Each drawer has a 1" x 4" label area protected by a thick plastic lens to keep indexing clean and legible. Add a Worktop or Base unit to top off each column, and partitions to divide your literature.
